

Camshaft Locking Tool (Art. 8243)

PRO +

- needed for tooth belt replacement and other engine timing jobs
- suitable for all Diesel and gasoline DOHC engines
- fixation by locking the camshafts against each other
- pins made of hardened steel for long tool life
- versatile applications because of 2 different arm lengths
- special knob on center arm can be turned into a place-saving position

Technical modifications reserved - we are not responsible for issues while printing
