

Air Safety Quick Coupler, 2-Step Loosening Function, 1/4" Male Thread (Art. 9289)

**PRO +**

- prevents "flyaway" of the coupling when unlocked
- 2-step uncoupling of the air tools
 - step 1: coupler is loosened, air can escape, quick coupler remains fixed to the air tool
 - step 2: quick coupler can now safely be disconnected from air tool

Technical modifications reserved - we are not responsible for issues while printing
