

Pneumatic rivet gun

YT-36177

Intended for permanent connection of metal elements by means of blind rivets made of steel, stainless steel and aluminium.

- tilting pressure connection enables rotating the rivet gun freely
- a powerful 3-jaw system ensures quick and efficient riveting
- exchangeable ends enable working with rivets of various diameters
- rivet range: 4–6.4 mm
- low air consumption
- ergonomic and easily handled design
- 3 spare jaws
- container for pins broken off
- hanger in the casing
