

Wall painting gun

YT-82550

Electric spray gun for painting with wall paint, acrylic paint, wood stains and lasurs. Thanks to the built-in compressor it does not require external supply of compressed air.

- very easy to use and maintain
- on/off switch in the pistol trigger with paint flow adjustment
- 3-step nozzle position adjustment
- quick and uniform surface coverage – up to 10% lower consumption of paint in comparison to a paintbrush or a paint roller
- metal nozzle
