

Precise and narrow crowbar

YT-46750

**DROP
FORGED**

It is a forged steel crowbar that enables to pull out even small and deep-set nails. It accurately pulls out small structural elements. It is helpful in the disassembly of machines, furniture, architectural details, etc.

- *precisely made*
- *with two narrow extractors with precisely ground gaps*
- *smooth surface limits the surface's damage*
- *perpendicular positioning of the extractor makes work much easier*
- *small and handy size*
- *length: 300 mm*
