

Foam generation guns

Pneumatic foamers with a detergent tank make it possible to clean surface effectively by means of a generated active foam. Intended for cleaning car bodies, truck trailers, car parts and other elements resistant to washing with an active foam.

- made of light and durable aluminium
- tank capacity: 1 l
- maximum working pressure: 0.62 MPa
- air consumption: 113 l/min
- valve switch allows controlling the suction of fluid from the tank
- standard connection

0.62
MPa
(max.)

113
l/min

AI

220
mm

YT-23640

- precise nozzle 220 mm long makes it possible to get to hard to reach places, e.g. while cleaning a car engine

TURBO
NOZZLE

YT-23641

- turbo-nozzle forms a thick and dry foam which remains on cleaned surface longer
- wide tip makes it easier to apply a foam on larger surface, e.g. while washing the car body
