- high-performance commutator motor with up to 2800 W
- rotational speed of 4800 RPM ensures precision and cutting speed
- cutting at an angle of 0-45° and cutting depth adjustment up to 85 mm
- stable and even steel foot
- possibility of connecting an industrial vacuum cleaner (internal diameter of the connection: 34 mm)
- convenient, rubber handle
- supplied with 235 mm diameter cutting disc with 24 teeth, with 25.4 mm diameter clamping hole
- 3 m long rubber cable
- possibility to buy spare discs for wood: YT-60685 (24T), YT-60686 (36T), YT-60687 (60T)
