

Toilet pump with cutting blades

75953

An efficient sanitary pump with a shredder, fitted with a silent motor with power of 600 W.

- efficient stainless-steel cutting blade assembly
- reliable float switch, ensuring precise control over the device functioning for many years
- possibility of inflow connection on both sides
- fully automatic pump operation
- activated carbon filter prevents release of unwanted smells
- thanks to the small form factor, the pump is going to fit behind any traditional compact toilet
- possibility of connecting two additional devices, e.g. dishwasher, sink, bidet, washing machine, or even a low threshold shower base or bathtub

220-240 V~ 50Hz	600 W	Q max 150 l/min	9.5 m ↑
45°C max	↻ 2850 min ⁻¹	IP55	∅100 mm 2x ∅ 40 mm

Technical parameters:

Power: 600 W
 Rotational speed: 2850 RPM
 Max. flow: 150 l/min
 Max. elevation height: 9,5 m
 Max. water temperature: 45°C

Noise level: <45dB (class A)
 Voltage: 230 V~ 50 Hz
 Protection level: IP55
 Number of inlets: 3 (100 mm and 2 x 40 mm)
